

The Municipality of Port Hope has retained Ainley Group to undertake the Municipal Class Environmental Assessment (MCEA) process for the proposed replacement of the Sylvan Glen Bridge.

The design activities for Sylvan Glen Bridge replacement are being completed as a Schedule 'B' undertaking in accordance with the MCEA, which applies to municipal infrastructure projects including roads, bridges, water and wastewater projects.

As part of the study, alternative solutions for the replacement were assessed in consideration of traffic volumes, utilities, drainage, property impacts, and the natural, built/heritage, and socio-economic environments. Through the MCEA process, the preferred alternative for the replacement of the Sylvan Glen Bridge was determined to be a two lane semi-integral bridge with prestressed precast box beams. This was formally presented at a Public Information Centre on January 26, 2023 as the preliminary preferred alternative.

The MCEA process which included public consultation elements for this Schedule 'B' project is documented in a Project File Report, which will be available for a 30 calendar day public review period. Copies of the Project File Report will be available at the following locations for review, and on the Municipality of Port Hope website <https://www.myporthope.ca>.

Development Team Office
5 Mill Street South
Port Hope, ON L1A 2S6
Monday to Friday – 8:30 am to 4:30 pm

Town Hall
56 Queen Street
Port Hope, ON L1A 3Z9
Monday to Friday - 8:30 a.m. to 4:30 p.m.

The 30 calendar day review period begins on **April 20, 2023**. Written comments may be submitted until **May 20, 2023** (day of closing) to:

Ms. Lois-Ann Hayes, P. Eng.

In addition, a request may be made to the Ministry of the Environment, Conservation and Parks for an order requiring a higher level of study (i.e. requiring an individual / comprehensive EA approval before being able to proceed), or that conditions be imposed (e.g. require further studies), only on the grounds that the requested order may prevent, mitigate or remedy adverse impacts on constitutionally protected Aboriginal and treaty rights. Requests on other grounds will not be considered. Requests should include the requester contact information and full name for the Ministry. Requests should specify what kind of order is being requested (request for additional conditions or a request for an individual / comprehensive environmental assessment), how an order may prevent, mitigate or remedy those potential adverse impacts, and any information in support of the statement in the request. This will ensure that the Ministry is able to efficiently begin reviewing the request.

A copy of the request should also be sent to the Director of Environmental Assessment and Permissions Branch, and the Municipality of Port Hope. All addresses as provided on this notice:

Minister David Piccini
Ministry of the Environment,
Conservation and Parks

Director, Environmental
Assessment and Permissions
